

# PPDP Conference- Project summary

## Project 1: Supporting leadership capacity across a variety of contexts

**CONTACT PERSON:** Lindfield Public school

<u>Description of project:</u>	<u>Team members:</u>	<u>School:</u>
<p>1) Develop a series of Adobe Connect meetings at a regular time slot maybe once a fortnight, where Principals/leaders from city, rural, Primary, Secondary, NSW, VIC (?) identify "hot topics" that they want to discuss together. The meetings would essentially be like a support network discussion/structured conversation/ collaborative problem-solving forum. The key to these are the regular opportunities to chat together in an online meeting room. They are sustainable, leadership focused and could easily expand to include anyone who wanted to be involved.</p> <p>Suggestions for hot topics include:</p> <ul style="list-style-type: none"> <li>- How to engage the disengaged</li> <li>- How to cater for 21st century learners</li> <li>- EARs and TARS</li> <li>- How to develop planning priorities</li> <li>- How do you manage your TSR</li> <li>- GATS/ student leadership</li> </ul> <p>2) An annual leadership conference held somewhere near the Victorian border where we can invite Principals and leaders from Victorian schools. Conference could include workshop contributions from city, rural, primary, secondary, NSW, VIC</p> <p>3) Reciprocal visits, observational visits between schools - city, rural, primary secondary, NSW, VIC with a focus on leaders gaining experience of different contexts and different systems. Perhaps have a team visit some schools in Victoria to see how they make decisions about money/RAM etc. There was an interest in visiting some of the schools who received Innovation funding about 8 years ago to see how that has evolved.</p>		<p>Turrumurra High Killara High Naraweena Public Lindfield Public Lindfield public Beaumont Road Public Hunters Hill Public Ku-ring-gai CA HS Naraweena Public Buronga Public GolGol Public</p>

## Project 2: Developing leadership capacity through Instructional Rounds (Leading Innovation through Quality Teaching Rounds)

**CONTACT PERSON:** , Killara High School

<u>Description of project:</u>	<u>Team members:</u>	<u>School:</u>
